

## The Breckenridge Series

### Vent-Free Gas Fireboxes

### Deluxe, Premium, Select, and Multisided

Breckenridge Select Firebox shown with Banded Brick Liner, Sassafras log set on a Slope Glaze Burner, Black Outer Frame, and LK3 Lighting Kit (available for Premium and Select Models only)

White Mountain Hearth – The Pinnacle of Efficiency

# Features

## Breckenridge Vent-Free Deluxe, Premium, and Select Models

- Variety of Configurations
- Decorative Accessories Tailor the Look to Your Décor
- Louver and Flush Front Models in Matte Black
- Blowers available for Louver and Flush Front models
- Refractory, Ceramic Fiber, and Metal Liners (varies by model)
- Accepts Any Certified Vent-Free Burner and Log Set
- Zero Clearance Certified
- Made in the U.S.A.

The Breckenridge Vent-Free Fireboxes offer a variety of sizes and configurations. Available in louvered and flush front, the Breckenridge Deluxe and the deeper Premium models present the updated look of a traditional recirculating firebox.

Designed for installation in tight spaces, **Breckenridge Deluxe** fireboxes measure just 16 1/2 inches deep for the 32-inch model and 19 for the 36- and 42-inch models, yet still allow installation of a blower. We offer an assortment of decorative arched doors, louvers, and frames for the Deluxe fireboxes – accessories normally reserved for manufacturers' upscale models. Liners include four styles in ceramic fiber, one in refractory, plus Stainless Steel and Black Reflective (Deluxe only). Surround your fireplace with a traditional-style Cabinet or Corner mantel in one of five finishes, or choose stainable oak or hardwood.

For use with contemporary burners, we also offer stainless steel and reflective black liners to fit the Deluxe firebox, along with special contemporary mantels in modern matte black or matte white – in cabinet or corner models.

*Breckenridge Premium 32 Vent-Free Louvered Firebox with Traditional Liner*

*Breckenridge Deluxe 36 Vent-Free Flush Firebox with Refractory Liner*

*Breckenridge Select 42 Vent-Free Firebox with Herringbone Liner*

The optional FreshAir+ System, for Deluxe and Premium Fireboxes only, blends warmed air with incoming outside air to continuously freshen your indoor air.

# Features

**Breckenridge Premium** fireboxes add a little more overall depth – 20 7/16 inches – and a taller opening to showcase today's bigger log sets. Complete the Premium Firebox with one of four ceramic fiber liners, decorative accessories in three styles and four finishes, a blower – and even a lighting kit for use with a switch or dimmer control. Surround the installation with a traditional cabinet or corner mantel.

Our unique **Breckenridge Select** vent-free gas firebox features a tall, deep stage for the log set, yet has compact outer dimensions and a low-profile top and bottom. The visual effect is a lot more fireplace with less of the firebox face showing.

The Breckenridge Select has no lower louvers, allowing it to be installed at floor level, yet still provide the benefit of a recirculating firebox with optional blower.

The low floor height allows installation at or near floor level, for a natural, integrated look that creates the illusion of a site-built fireplace – at a fraction of the cost.

All our fireboxes feature hem-bent seams that provide a better seal while eliminating dozens of screws and fasteners. The result is a lighter, more rigid box that's easier to install.

## Breckenridge Vent-Free Multisided Models

Our **Breckenridge Multisided** fireboxes accept any properly sized, certified vent-free burner and log set, such as the 18-inch, 24-inch, or 30-inch Slope Glaze Vista Burner, with a Stone River Ceramic fiber log set or a Rock Creek refractory log set.

The Breckenridge comes with conventional louvers or in a flush face model that can be completely bricked or tiled into place, yet still allow use of the circulation blower.

Breckenridge Fireboxes include curtain-style screens, Banded Brick Liners, and refractory sills.

*The Breckenridge Premium 36-inch Peninsula Vent-Free Firebox is available in louver or flush-face (shown) and includes curtain screens. Shown with Slope Glaze Vista Burner and Rock Creek refractory log set. Also available in See-Through models with two open sides.*

*Rugged looking refractory logs give the Rock Creek Log Set a rustic look on a grand scale. (Opposite side view)*

*Just like a real wood fire, the Stone River ceramic fiber Log Set provides a different look from every angle. The Slope Glaze Vista Built-in Burners conceal their controls behind a sliding panel.*

# Options & Accessories

## Options & Accessories

A variety of easily installed decorative accessories for the Breckenridge let you tailor your firebox to your décor.

Choose louvers in three patterns – slat, arched, and mission – finished in matte black or hammered pewter.

Matching door sets complete the transformation from an attractive fireplace to a stunning focal point.

## Liners

Our brick liners give your new firebox the look of a real masonry fireplace. On Deluxe and Premium fireboxes, choose our Traditional liner with light-color bricks, the Banded Brick liner, the Aged Brick liner with deep, rich red tones and hand-painted heat and smoke residue, or the Stacked Limestone liner with rugged, irregular stones, and no mortar.

Liners for our Select fireboxes also include a ceramic fiber liner in a Herringbone Brick pattern with lighter color bricks that complement the large opening. Deluxe models are also available with a factory-installed Refractory Brick liner.

For a completely contemporary look, pair the Deluxe firebox with either a Black Reflective or Brushed Stainless liner. Flames reflect off either surface, creating drama and depth inside your firebox. Either liner shows exceptionally well with Loft Series Burners and Decorative Glass.

The optional automatic blower circulates the warm air throughout the room. Add the optional variable-speed control to adjust the fan speed.

An optional Accent Lighting Kit (LK3) for Premium and Select models creates dramatic shadows inside the firebox to provide visual interest, even when no fire is burning.

## Outer Frames and Bottom Trim

Our metal three-piece outer frames let you transition from your fireplace to any adjoining surface – wooden mantel, tile, stone, or any noncombustible material. Choose from steel frames – with traditional crisp lines – or our extruded aluminum frames – with a profile that combines gentle concaves with flat surfaces. Each is available in matte black or hammered pewter.

The available bottom trim completes the fourth side of the color frame.

Breckenridge Decorative Trim is available in Classic Matte Black or Rich Hammered Pewter.

# Log Sets and Burners

## Log Sets and Burners

The hand-painted ceramic fiber or refractory log sets complement the flames from any of our Vent-Free burners.

At 99.9 percent efficient, our Vent-Free burners deliver more heat for your energy dollars.

Step up to a Remote-Ready Burner and select our battery operated Thermostat Remote Control. Our Thermostat Remote automatically cycles the burner on and off to maintain your ideal room temperature.

We offer burners with a variety of control and ignition systems – from manual valves with a standing pilot, to Millivolt valves with standing pilot to electronic valves with electronic ignition to eliminate the standing pilot. Millivolt and electronic systems work with our remotes and thermostats to add comfort and convenience.

See the White Mountain Hearth Vent-free Gas Log brochure for complete specifications.

# Multisided Loft Series Burners

## Multisided Loft Series Burners

The 24-inch Multi-sided Loft Burner (36,000 Btu) is ideal for Peninsula and See-Through fireboxes. Like other Loft burners, the Multi-sided system can be tailored to your living space with decorative tops (in Stainless Steel and Polished Black) or glass (in Clear Frost, Blue Clear, and Polished Black). Optional liners, in brushed stainless steel and reflective black, fit Empires 36-inch Peninsula and See-Through fireboxes.

Standard Mantels available in cherry, dark oak, oak, nutmeg, white, unfinished hardwood, and unfinished oak.  
Contemporary Mantels available in Black and White. See Owner's Manual for Peninsula mantel specifications.

Vent-Free appliances may be installed in an aftermarket (mobile) home where not prohibited by state or local codes. The approval (G1-0504-90B) has been granted subject to the installation in compliance with CMR 248, 527 CMR 30, Massachusetts State Plumbing Code and/or the Massachusetts Fuel Gas Code.

Empire is committed to continuous product improvement; specifications are subject to change without notice. Dimensions in this brochure are approximate; read and follow the framing dimensions in the owners manual supplied with your Empire product. Flame size, shape, and color will vary from photos. Our mantels feature natural veneers and hand-rubbed finishes - wood grain and color will vary. Adjust light levels and use "natural light" incandescent bulbs to enhance the dramatic look for your wooden mantel.
