

EXTREME FIRE
TRI-FIRE
STEEL FIRE PIT

- ◊ 1-MINUTE ASSEMBLY
- ◊ USE ANYWHERE - NO MESS!
- ◊ LIGHTWEIGHT FOR EXTREME PORTABILITY

NO OTHER FIRE PIT IS THIS TRAVEL-FRIENDLY!

Because it's an actual fire pit with a base (and not a fire ring), the Tri-Fire Portable Fire Pit can be used anywhere. It's perfect for on-the-go moments and impromptu gatherings. At only 16 lbs., it's easy to carry in the included free tote bag. Put it together in less than a minute with just 3 easy steps and you're ready to go!

Most pits built to travel skimp on the steel, but the Tri-Fire features super-sturdy construction from 14-gauge steel and is made right here in the U.S.A. by outdoor enthusiasts just like you!

MODEL NO. #50011
TRI-FIRE PORTABLE FIRE PIT

Dimensions:
Height: 14". Width: 24" , Weight: 16lbs
