

IMPORTANT

READ AND UNDERSTAND THESE INSTRUCTIONS BEFORE INSTALLING

Installer: Please leave these instructions with consumer.
Consumer: Please retain these instructions for future use.

Instructions for Platinum Bright Embers

Note: **The Platinum Bright embers are for vented log sets only.** Do Not place Platinum Bright Embers on any Vent-Free device, this will interrupt the combustion process and can cause harmful emissions.

Caution: We recommend using gloves or tongs to position the Platinum Bright Embers into Position. Wash your hands immediately after touching to avoid irritation. Do not store embers near flammable liquids.

1. Place the Manufacturers Sand, Rock Wool vermiculite and volcanic cinders per manufacturers instructions.
2. Place individual pieces of Platinum Bright Embers in front of and around the gas log where gas will contact them on all sides. Avoid stacking the embers as this will reduce the catalytic effect.
