

The DRL2000 Series linear direct vent gas fireplace offers a clean faced, low profile design that is just right for contemporary and transitional spaces. Its sleek opening provides an exceptional view of the gently dancing flames rising through the beautiful reflective black glass floor media. Reflective black porcelain interior liner, heat circulating blower, remote and wall controls are available as optional accessories, making the DRL2000 Series a smart choice.

FEATURED DRL2035 with reflective black crushed glass media

## **FEATURES**

- ♠ Available in a 35", 45", and 55" linear configured models
- √ HeatFlo™ kit option allows heat to be directed above heat sensitive wall hangings (45" & 55" models only)
- 6 Electronic ignition with battery backup provides continued operation in the event of a power outage
- Clean-face design with integrated tile stops for easy finishing
- Decorative surrounds available to complement drywall finished applications
- Outstanding heating efficiency for increased comfort and lower operating costs
- Standard tempered glass and a protective screen\*
- Reflective black crushed glass media included with several optional colors available to customize the look
- Optional driftwood logs and river rocks are a perfect addition for a transitional design
- Black painted interior (optional porcelain liner available)
- Optional blower and hand-held remote controls available for all models
- Durable textured powder coat finish
- 20 year limited warranty

<sup>\*</sup>All applicable models comply with ANSI Z21.50/88 barrier requirements.

# **HEATFLO KIT**

Protect heat sensitive televisions, artwork and other decorative wall materials. No blower required, the HeatFlo kit works through natural convection to redirect heat from the fireplace upward through hidden ductwork and out through a sleek horizontal vent. Walls stay cooler and heat flows more evenly through the room for a comfortable fireplace experience.

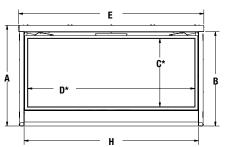

- TV & Artwork can be placed above the fireplace
- · Helps protect heat sensitive wall facing materials
- Improves convective heat circulation in the room
- No electricity or blower required for operation

# IMPORTANT NOTES:

As with any fireplace, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer. Local conditions, such as elevation and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, ceiling height, accessories chosen and appliance location.

Diagrams, illustrations and photographs are not to scale — consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.

## **DRL2000 FRAMING**

| MODEL      | А       | В   | С   | D   | E       |
|------------|---------|-----|-----|-----|---------|
| 35" MODELS | 35-7/8" | 29" | 42" | 18" | 31-1/2" |
| 45" MODELS | 45-7/8" | 29" | 42" | 18" | 31-1/2" |
| 55" MODELS | 55-7/8" | 29" | 42" | 18" | N/A     |

C = Height for installations with 12" section directly off unit then elbow D = for flush framing.

E = Height for installations with elbow directly off unit (see note below)

\* Minimum opening size; additional 1/8" per side is recommended.

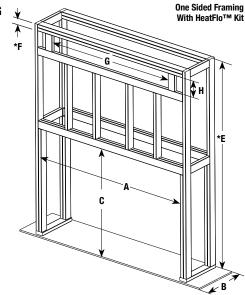

NOTE: Framing specifications do NOT apply for flexible venting. When using flexible venting, refer to the kit requirements for framing specifications.

NOTE: 35" & 45" model = Strongly recommend at least 1 ft of vertical rise directly off top of unit.

55" = 1 ft of vertical rise is required directly off unit.

## **DRL2000 HEATFLO FRAMING**

|   | 45" One<br>Sided<br>Framing<br>HeatFlo<br>Kit | 55" One<br>Sided<br>Framing<br>HeatFlo<br>Kit |
|---|---|---|
| A | 45-7/8"                                       | 55-7/8"                                       |
